Professor Boris Ephrussi
Laboratory of Genetics
13 Rue Pierre Curie
Paris 5, France

Dear Boris:

I am sorry to be so late in replying to your kind letter of October 2. I hope you will forgive me, but I am still investigating alternative plans. These are very much a matter of finances. If we possibly can we will visit Paris on this occasion but there is also a problem of time, fitting it in to a rather rigid schedule. I will let you know later how things develop.

Yours sincerely,

Joshua Lederberg
Professor of Genetics
